

ORNAMENTA®

Coverings' 19 The Global Tile & Stone Experience
April 9–12, 2019

Orlando, FL: April 9, 2019 – ORNAMENTA, is returning to Orlando for its third time after birth. This year's exhibition is focused on the theme of a metropolitan "Cafè" in which striking color palettes are combined with arches creating an inviting space where socialize and spend time together.

Designed by D-SEGNO STUDIO, ORNAMENTA Cafè recreates the atmosphere of a metropolitan cafe recalling the fifties and sixties. The floor is the new Chiaroscuro collection presented in world premiere, a cement that enhances the natural material used here in the light color of the range. The furnishings, the brass finishes that cover the arches and the use of wall-mounted ceramics help to reinforce the iconography.

"The idea was to create an imperfect surface imbued with character and emotion and an exceptional depth of colour, resulting from the tonal balance of light and dark shades celebrating the rawness of natural substance. The surface creates a dynamic play, appearing from a distance as a smooth mélange, across a spectrum of earthy hues that are surprisingly vibrant, from major brown to luminous sand and off-white. Plain tiles are accompanied by an interactive digital decorative module in three different colour variants that allow architects and designers to visualize different colourways and layouts."

- Davide Tonelli
Creative Director

2018 marks the debut of ORNAMENTA in the world of large decorative slabs, for this year 2019, the program is enriched by new 7 bold patterns declined in a very new colour palette too.

Stand Location

booth 1741
